All-

BLM-Utah is proactively developing key messages in advance of anticipated Presidential action on the monument review. While we do not necessarily know the specifics about changes that may be coming, we can begin preparing for expected interest from the media.

Please respond with a tracked changes version of necessary edits for your unit. If you are able to prepare initial thoughts by COB on Monday (11/13), we would appreciate it. We understand that you may want additional time to fine tune your edits, but would like to know about major issues ASAP.

These documents are all close hold- please share only on a need-to-know basis.

Communication Plan

Presidential Action on Secretarial Recommendation for Grand Staircase-Escalante National Monument and Bears Ears National Monument

INTRODUCTION

BLM Utah manages two national monuments: Grand Staircase Escalante National Monument (GSENM) established by President Clinton in 1996 and Bears Ears National Monument (BENM) established by President Obama in 2016. The establishment of both monuments has been the subject of intense media scrutiny and controversy. In April, President Trump released an Executive Order requesting review of certain monuments, including GSENM and BENM. Secretary Zinke conducted a field visit to both monuments and prepared a recommendation.

President Trump has publicly announced his intention to visit Utah in early December to announce action on the Secretarial recommendations for BENM and GSENM. We anticipate that BLM Utah staff will be questioned about any relevant changes to the two national monuments. This document provides consistent messaging and information to use when responding to both the public and media.
